## THE FLAMIN' GROOVIES

### "Step Up" AIM 1030CD

This is one hell of a great recording. To love this band is to care about what makes great rock music truly great. This album was recorded over a five year period between 1984 and 1989. The Flamin' Groovies formed in San Francisco in 1965 and are regarded by fans and critics alike as being one of the finest bands to ever emerge from the city that produced Big Brother and the Holding Company, Jefferson Airplane, Santana, and The Grateful Dead to name a few.

## RONNIE BARRON

### "SINGING IN MY SOUL"

### AIM 1038CD

Originally recorded in the early '80s featuring the cream of L.A. session players, as well as a number of New Orleans natives. Ronnie Barron has always been one of the great unsung New Orleans Piano legends. He produced Dr. John's first album "Gris Gris". He also played piano on the original Dr. John albums "Sun, Moon and Herbs", "Gumbo", "Hollywood Be Thy Name" as well as "Gris Gris". It is said Ronnie Barron is the missing link from the legendary black piano players - Professor Longhair, James Booker etc. - to the white players such as Dr. John.
