Monsore

AIM 1065 CD

Monsore is Osibisa's brand new 1997 studio album - their first studio album since "Mystic Energy" in 1980.

Osibisa played a central role in the development of African music. In 1970 they created a new style, known as Afro-Rock, and their self titled debut album became a platinum hit with sales in excess of one million copies.

Their sound has been described as "criss cross rhythms - exploding with happiness."

They continue to play to this day still featuring the three Ghanaian musicians who formed the band - sax player Teddy Osei, trumpeter Mac Tontoh and drummer Sol Amarfio.

Aim's back catalogue of Osibisa's material continues to sell well, and we expect increased sales interest on these titles.

Other Osibisa titles available on Aim:

Aim 1057 - African Flight Aim 1056 - Ojah Awake
